STOCK MARKET LIKE THREE-RING CIRCUS

There Is So Much Going On at One Time That Brokers Miss Some of It.

TRANSACTIONS ARE HEAVY

Specialties Have Their Turn, and There Are Swift Changes in Public Interest-Street Takes Kindly to Wabash Reorganization Plan.

BY BROADAN WALL. NEW YORK, April 20 .- To-day's stock market was like a three-ring circus. There so much going on that speciators missed much by their inability to direct their attention in different direction at the same time. It was a day of specialities, heavy transactions and swift changes of interes:

neary transactions and swift changes of interest.

In the early dealings there was a sharp rise in National Lead, and a 2-point advance in Rubber. Pressed Steel Car swung into the with a 5-point gain. Consolidated Gas gave a 4-point jump and announced an extra dividend of a quarter of 1 per cent. Interhorough-Metropolitan common was active, but there was an abundance of stock for sale about 21%. Steel moved from 59 to 60%, where there was considerable short covering. The price slipped back a point rather easily at the close. Westinghouse swung into prominence in the afternoon, climbing from 5% to 5%, and holding the rest of the industrials. While closing prices showed many gains, standard issues were heavy.

The Street took kindly to the Wabash re-

showed many gains, standard issues were heavy.

The Street took kindly to the Wabash reorganization pian. Condidential circulars giving details were sent to the large commission houses. It is believed that the new securities will be made attractive, and as the old common will fare almost equally as well as the preferred, the stock was being quietly accamulated around 2. The old preferred shares had a quick advance to 6½, but fell off to 3½ later. The new shares when issued were quoted on the curb, the common, 14 to 15; preferred A. 50 to 55; preferred B. 25 to 32. Rumors of war orders for the American Can Company, which were not confirmed brought an advance to 42½. Too much speculative trading bought a quick reaction to within a fraction of 41.

National Enameling and Stamping shell give the common is the time being. While prices were not heavy, there was little disposition to advance quotations, although the metal was strong at 19 cents. Missouri, Kanseas and Texas preferred rose sharply on the report that 30 per cent of the noteholders had agreed to an extension. The air was full of rumors of an impending advance in Missouri Pacific, but the stock larged.

United States Rubber was strong. This stock pays 6 per cent, and earnings are said to show satisfactory increases for the current vear.

Pressed Steel car was one of the strongest of the equipment issues, rising from 55 to 57% on reports that the company had received a new order for 10,000 steel cars. Bonds were active and strong with a broader interest in the speculative issues.

New YORK, April 29.—Substantial reports that additional war contracts had

stock pays 6 per cent, and earnings are said to show satisfactory increases for the current vear.

Pressed Steel car was one of the strongest of the equipment issues, rising from 55 to 57% on reports that the company had broader interest in the speculative issues.

NEW YORK, April 22—Substantial reports that additional war contracts had been awarded to American manufacturers contributed to to-day's active stock market. Equipment and industrial shares advanced from 2 to 6 points, Westinghouse Electric making a high record.

United States Steel was the pivot around which the list revolved on dealings aggregating about 20 per cent of the whole, advanced 1½ points to within the smallest fraction of the year's best price, but fell back toward the close, to the accompaniment of adverse trade rumors.

Although the volume of business was below that of recent active sessions, to-day's movement was very broad, taking in almost every division of the list.

Declines of a point or more in steel and some other favorites provoked some irregularity at the close. The local bond market yielded none of yesterday's strength, but trading was much lighler. New York Central debentures 6s wered higher, and Wabash refunding 4s rose over 5 points.

United States government sonds unverhanged on call.

COTTON MARKETS.

NEW YORK, April 29—Cotton showed prices ensing off under scattered selling, apparently inspired by a rather more favorable view of weather conditions South. Closed steady, S to II points not lower.

Opened barely steady en relatively easy cables reports of showers or rain in the eastern beit, selling by houses with Liverpool connections and eacal liquidation. Reports that over an inch of rain had fallen in the Railein section was not confirmed, however, and, after showing a net loss of about 3 to 6 points, the market steadled slightly on the Eastern beit forecast for fair weather to-sight and to-morrow and the prospect for unsettled or cloudy conditions in parts of the Southwest.

Builten acreage advices came in, but buying was far from aggressive, and the market eased off again during the afternoon under New Grieans selling renewed liquidation and a little pressure from local traders. Closing prices were the lowest of the day. Futures closed steady.

NEW ORLEANS, April 29.—Cotton gradually worked to lover levels to-day under selling based on improvement in weather said crop accounts, the growing belief in a fairly arge acreage and unfavorable cable advices. War demands was not considered advices. War demands was not considered encouraging, and had more or less effect on the afternoon trading. Late in the sension following the marking down of local spot quotations by 12 points, the market took on an easy undertone. At the lowest of the day prices were 11 to 12 points under yesterday's thail figures, the close being 9 to 12 points under. Trading was not active, and boars were not aggressive. Only at times was there much selling and generally moderate buying served to hold prices up. Futures closing: May, 277, July, 10.05; October, 10.22; December, 10.47; January, 10.66, Spot cotton, quiet, 13 points under middling, 3.63. Sales on the spot, 655 bates, to arrive, 129 bales.

Bradstreet's Report.

Bradstreet's to-morrow will say for Richmond and vicinity: The volume of business taken as a whole shows some increase, and unless some unforseen influence of depression occurs it is believed general conditions will show improvement from this time on. A period of warm weather has generally stimulated sales of seasonable merchandise at retail, and has favored farm operations, however, rain is needed in some sections. Winter wheat and oats are in exceptionally good condition. A greater diversity of crops are being planted in this territory, and the acreage of corn will show considerable increase. Present estimates indicate a 20 per cent decrease in the acreage of cotton to be planted. Sales of agricultural fertilizer continue unusually late this season, but a decrease in volume of about 20 per cent is reported. Wholesale grocers and provision dealers report a good demand. Shipments of strawberries and other early vegetables to Northern markets are now in fair volume. Lumber continues quiet, and a comparatively diminished demand for other building materials is evidenced. Drygoods and shoes continue quiet. Drugs and fountain supplies are in active demand, and tobacco manufacturers report better sales except in export lines. The lack of dyestuffs is still giving cotton goods manufacturers some concern. Financial conditions are on a good basis, and bank clearings show an increase of a like period over last year. Rediscounts at the local Federal Reserve Bank show a steady increase. Local failures show a decrease from the early weeks of the year in favorable comparison with national statistics, which show a substantial increase over last year.

Would Represent Virginia in India. Governor Stuart yesterday received an application from an Indian doctor, who asks that a certificate be awarded him authorizing him to serve as Commissioner of Deeds for the Common-wealth of Virginia in the Empire of

The communication was dated at Kapurthala, India, March 12. The ap-plicant for the certificate subscribes himself "Dr. Abul Fazl, L. L. D., A. A. S., Ph. D., Counsellor at Law and Commissioner for the Commonwealths of Pennsylvania, Illinos, Ohio, New York and Arizona in the Empire of India."

The Governor has taken the application under advisement

BABY, DEAD AT BIRTH. FINALLY MADE TO LIVE

Pulmotor Alds Infant Born Blue Without Heart Action.

NEW YORK, April 29 .- Mrs. Rose coar gave birth to a girl baby at her home, 1665 Cruger Avenue, the Bronx, Monday morning, which was blue of color and without heart action. The

Great Fortress Will Be Erected at

color and without heart action. The attending physician tried artificial respiration, but finally said at 8 o'clock, "The baby is dead. Animation was completely suspended at birth."

But Mr. Noar telephoned for a pulmotor, and the wagon arrived within ten minutes. It had four tanks of oxygen besides the pulmotor.

Within half an hour after the work of pumping oxygen into the baby's lungs had been begun she gasped. It was her first sign of life. ond Fortification Planned to De-

[Special to The Times-Dispatch.]
WASHINGTON, April 29.—President
Wilson is in accord with Secretary of
War Garrison on the needs of immediate preparation of a proper military
policy, which the secretary outlined in a letter to General Macomb, president of the Army War College. This statement was made to-day by a competent authority.

The first result of the new policy.

I the first result of the new policy.

I the answer chesterfield Co., Va., 3:30 P. M., on
FRIDAY, THE 30TH DAY OF APR and the physician feared there was no hope of saving the child. But Mr. Noar insisted that every tank of oxygen be emptied before he would give up hope. Again the pulmotor men went to work.

At 10.05 there were two gasps and a twitching of fingers. A few minutes more and then came a baby's cry. She was alive. The four oxygen tanks were emptied.

At 11 o'clock a decidedly lively baby.

At 11 o'clock a decidedly lively baby The first result of the new policy was carried to her mother by her father. will be the erection of a great fortress

father.
"It was amazing!" the physician said.
"That baby was dead when it was born
and animation was suspended for more
than two hours. That pulmeter and at Cape Henry, armed with sixteen-inch guns. The second will be the erection of a similar fortress east of Sandy Hook. Notwithstanding the denial of the men who handled it some officials, this fortress probably what no physician in the would could will be on Rockaway Beach. Sandy Hook fortifications are suitable, experts say, for the channel entrance to the east of it, but it will require a fortress
